Also having the property instrument survey map and/or 2 or 3 photos of area where ramp is going to be placed will be very helpful. (When taking photos stand back far enough to get overview of area)

Email your measurement / survey sheet, instrument survey map and photos to mike@miketheaccessguy.com or stop by the Access Lifts and Ramps Accessibility Center so we can help you choose the ramp that is right for you (we suggest you call ahead to make sure one of our ramp specialists is available to help you when you arrive).
